Re: Administrative Orders Index No. II-CERCLA-50114 and II-CERCLA-60102, concerning the Scientific Chemical Processing Site, 216 Paterson Plank Rd., Carlstadt, New Jersey

Dear Sirs:

This is to inform you that EPA has reviewed the March 4, 1987 Project Operations Plan (POP) for the SCP Carlstadt Remedial Investigation, and has determined that EPA's comments, transmitted to Thomas Armstrong on November 26, 1986, have been satisfactorily addressed. Accordingly, EPA expects that field work will be initiated within one week of your receipt of this letter.

As I informed Mr. Armstrong in the November 26, 1986 letter, EPA will be assessing the impacts of the Superfund Amendments and Reauthorization Act of 1986 (SARA) on this and all ongoing projects as we continue to receive implementation guidance from EPA Headquarters.

Sincerely yours,

John V. Czapor, Chief
Site Compliance Branch

cc: William Warren, Esq.
